Each year, just before graduation, we celebrate the success of single moms who are shattering statistics to build a better future for themselves, their children and their community. These moms fearlessly and faithfully faced the facts that less than 2% of teen moms graduate before they are 30. They've heard that children of single moms disproportionately suffer from poverty, lower education levels, depression and incarceration. **And they bravely chose to keep moving forward to give their family a fresh start.**

But they can't do it alone. None of us can. We're better together.

That's why we invite you to GATHER - our 5th Annual Signature Event - where The MOMentum Network brings together the community to celebrate moms and mentors making a difference. We will recognize our graduates and member moms as well as community members who are pouring into the lives of other women. We'll also share inspirational stories of how The MOMentum Network is changing our community and opportunities for you to make an impact.

We invite you to be a part of providing a better path forward for both moms & their children through your support of our Littlest Learners program, Success Share (for Scholar Moms & Future Scholar Moms), and Community Connections program. You'll also get to see what we have planned to make sure that no mom & child are physically isolated and disconnected from a caring community. We hope you join us!
